LINKING BIODIVERSITY CONSERVATION AND POVERTY REDUCTION: WHAT, WHY AND HOW?

organized by Dilys Roe (IIED), Matt Walpole (UNEP-WCMC) and Joanna Elliott (AWF)

The links between environment and development have long been discussed, but only recently has this discussion focussed specifically on the possible links between biodiversity conservation and poverty reduction. In 2002, the Convention on Biological Diversity (CBD) adopted a target “to achieve by 2010 a significant reduction of the current rate of biodiversity loss at the global, regional and national level as a *contribution to poverty alleviation* and to the benefit of all life on earth”. It is clear that biodiversity loss will continue beyond 2010—but even if conservation efforts are successful would this really contribute to poverty reduction?

There is a diversity of opinion as to the nature and scale of biodiversity conservation–poverty reduction links and the most appropriate mechanisms that can help to maximise them. There are also many generalisations and assumptions that are made about these links. The purpose of this symposium is thus to explore what the current state of knowledge is and to challenge some of the prevailing myths and assumptions so as to identify the key research and implementation gaps. This should help inform a post-2010 biodiversity target for the CBD as well as making clearer the contribution that biodiversity conservation can realistically make to achieving the Millennium Development Goals (MDGs).

This two-day symposium will take the form of a mixture of paper presentations, commissioned “state of the art” reviews and case studies. A poster session will run concurrently and will focus on the role of local organisations in linking biodiversity conservation and poverty reduction.

CALL FOR POSTERS

LINKING BIODIVERSITY CONSERVATION AND POVERTY REDUCTION: WHAT, WHY AND HOW? A 2-day international symposium

Wednesday 28 and Thursday 29 April 2010 at the Meeting Rooms, Zoological Society of London, Regent's Park (Outer Circle), London NW1 4RY, UK

There are spaces for approximately 20 posters at this 2-day symposium. Posters will be on display throughout, and attendees will have plenty of time to study posters and interact with speakers and other delegates during tea/coffee breaks (poster area is close to refreshment points).

Abstracts of no more than 250 words outlining poster content should be emailed to joy.hayward@zsl.org by 29 March 2010 for consideration.

Please note the deadline for submission of poster abstracts is 29 March 2010.

Those who have submitted successful poster proposals will notified by 31 March 2010 and further guidelines will be sent at that time.
