[illegible]

Water bodies

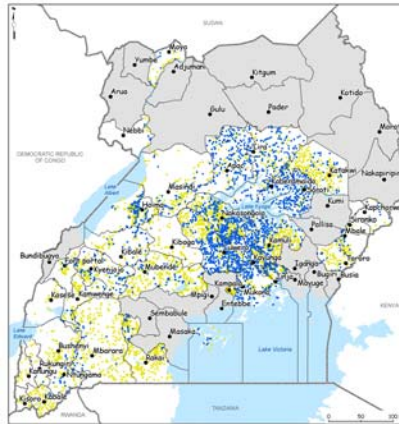

Activity	Number of wetland sample points	Percent of wetland sample points
No activity	168	4.1%
Tourism	84	0.5%
Beekeeping	567	10.6%
Water Collection/ Use	4,236	79.7%
Waste Water Treatment	336	0.8%
Fisheries	1,848	34.6%
Hunting	2,256	42.4%
Livestock Grazing	3,840	72%
Natural Herbaceous Vegetation Harvesting	3,072	57.3%
Natural Tree Harvesting	3,888	72.7%
Cultivation	1,968	36.6%
Plantation Tree Cultivation/ Harvesting	864	15.7%
Mineral Excavation	1,632	31%
Human Settlement	672	12.3%

Spatial Distribution of Uses

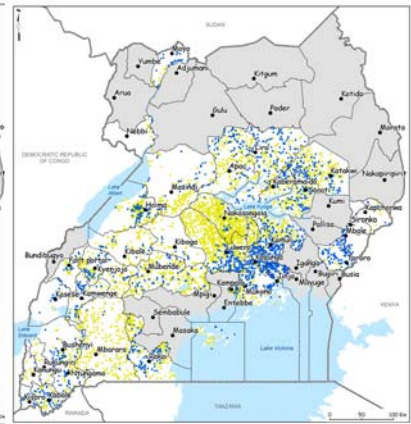

Beekeeping

Hunting

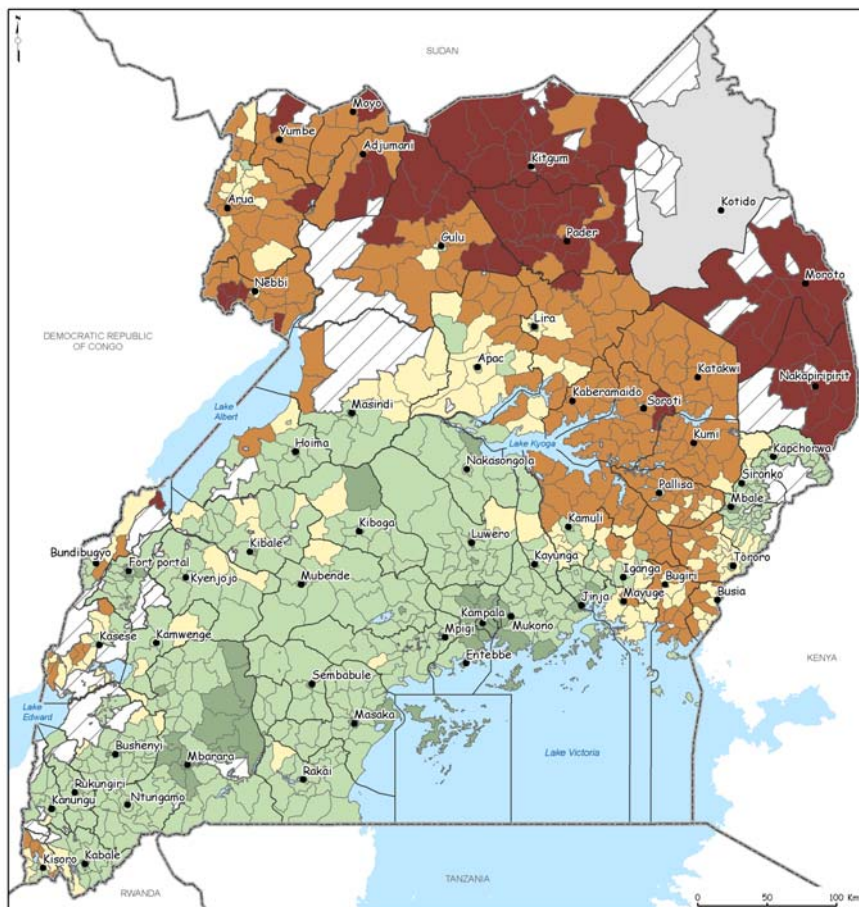

Cultivation of food and fiber

- Activity takes place
- Activity doesn't take place
- No data

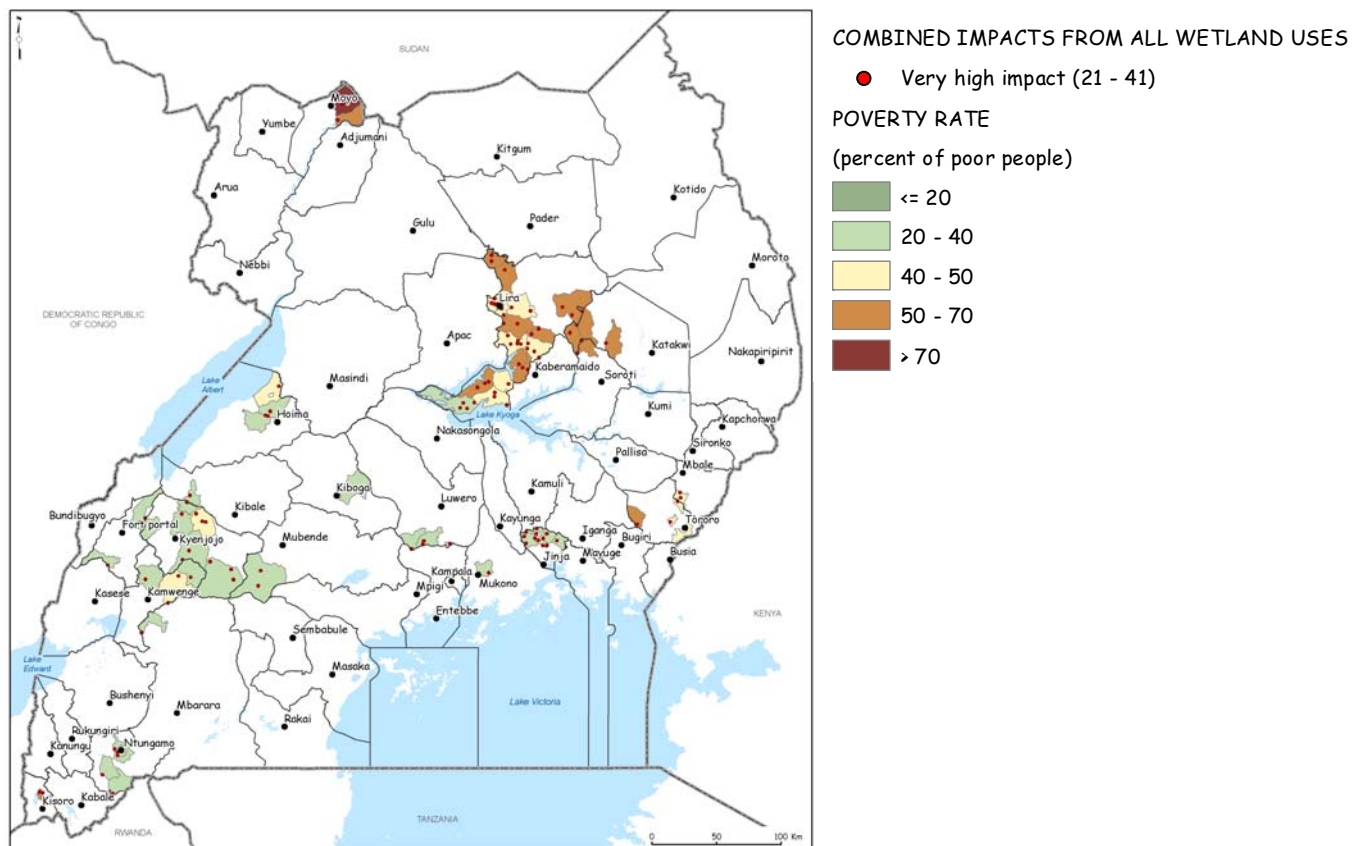

Poverty Rate, 2002

POVERTY RATE
(percent of poor people)

- ≤ 20
- 20 - 40
- 40 - 50
- 50 - 70
- > 70
- No data

Poverty Rates in Subcounties with Very High Wetland-Use Impacts

Sanitation, Drinking Water, Health, and Wetlands

Wetland System and water collection and use

WETLAND SAMPLE POINT

- with water collection and use
- without water collection and use

WETLANDS

- Permanent
- Seasonal

Lack of sanitation facilities

DENSITY OF HOUSEHOLDS WITHOUT SANITATION FACILITIES
(number of households without latrine per sq. km)

- ≤ 10 (low pollutant load)
- 10 - 15
- 15 - 30
- 30 - 370 (high pollutant load)

Integration of wetland and health considerations
